Tiles and Bathrooms

Wood Stone

Wood Stone is a distinctive wall and floor tile range with a glazed porcelain finish which looks gorgeous within any sized room. With 48 faces per colour this range allows virtually zero repeats, creating an inspiring random mix of tiles which come together to form a striking look.

This range comes in 3 colours, white, graphite and forest and can be laid in a brick like or herringbone fashion to add extra style.

Wall and floor tiles: 100 x 300mm

Welcome...

Great news for home lovers! We are extremely excited to launch our brand new Tiles and Bathrooms Magazine full of new tile and bathroom designs and special offers. Whether you would like to update the look of an existing room or are planning to start the job from scratch we have everything you need to complete your project, including inspiration to help you to decide exactly how you would like to decorate.

The team at N&C Tiles and Bathrooms are excited to have been recognised for their award winning service by The Tile Association having won 'Excellence in Retailing'.

Our experienced and knowledgeable members of the team are there to make sure you get the best quality products suited for the job. Visit us instore for ideas, inspiration and expert advice.

Always on trend...

Grab a cuppa, sit back, relax and be inspired by our latest trends which help you to create a gorgeous fashionable look within your home.

Colour forecast...

Understanding current and future colour trends and designs allows us to make decisions to ensure that your interiors are timeless. Shop with N&C for the best colour choices in the latest designs!

Illusion

For a delicate effect, select softer tones of white/cream, light cappuccino, and mint pastel green to create an optimum effect. The brightness of these colours create a welcoming invitation into the home making rooms look bigger and brighter.

This design concept fools the eye and makes any interior and exterior area seem more spacious than they really are.

Warmth

The hot metal colours which create warmth within the home will continue to dominate for years on end. Rose Gold, Brass, Copper and Gold are best used when combined with natural raw materials such as wood and marble.

This long lasting trend can create the wow factor within your home with its expensive look yet warm feel.

Enchanted

Natural colours and material help to keep your home looking consistently fresh and clean. Natural materials such as wood help to create a contemporary simplistic look. Our fragile essence seeks for products which naturally unwind, comfort and relax us.

We call on nature not just to inspire but to collaborate within the design and feel within our homes.

Greys

Multiple shades of grey conform to the natural palette replicating grey winter mornings. Dusted tones blended with the colour blue create a timeless look.

However, for those looking for more intensity with your design, emerge your greys with bright contrasting colours to add a creative pop of colour to add a dash of positive energy.

*Maintain the look of
your floor tiles!*

Top N&C Tip

Routine cleaning using Nicobond Tile Cleaner can avoid harsh scrubbing and the use of stronger chemicals later on.

Q How can I maintain the new look of my new tiles?

A As soon as you purchase your new tiles, use an initial cleaner to remove residue and harsh dirt caused by tiling, then use a regular cleaner for ongoing cleaning. Use a sealer to protect your tiles. Follow our recommended cleaning regime to keep your tiles looking gorgeous!

Q Can I use Nicobond Sealers and Cleaners on my existing tiles, or is it too late?

A It's not too late to rescue dirty, stained tiles. Depending on the surface type and type of existing stains, we offer special cleaning products with a more advanced, powerful formula. Ask in store for details.

Q How do I know what products to use?

A There are different products depending on the type of tiles you have. Use our easy product selector chart to find the product you need!

*Follow our 3 step cleaning
regime to keep your tiled floor
looking glamorous!*

1. First, sweep away or Hoover the tiled floor to remove dust and dirt
2. Damp mop the floor using the required dilution of Nicobond Tile Cleaner & water
3. Dry the tile surface using a dry mop or absorbent cleaning cloth rather than waiting for it to dry

Is it time for a... Bathroom M

Our customer wanted to update their existing old fashioned bathroom to make it look more classy whilst replicating the Hotel Chic look. When visiting the store they loved our marble tile ranges & squared furniture designs.

With the customers design preferences in mind, we helped them to create their dream bathroom.

Throughout this transformation our customer used our gorgeous Stylish matte tiles, replicating the latest Marble look whilst incorporating our silver brushed effect listello to add a beautiful finish.

Products used throughout their new design include Vogue Bathroom Suite, Synergy Furniture, N&C L-Shaped Shower Bath, Mira 360 shower, and Nova Cube taps.

ROOM PLAN

Don't forget!

Measure up before you make any purchases. Sizing is extremely important when choosing new bathroom furniture to ensure that there is enough room for the products you would like with plenty of room to maneuver.

Makeover?

Available in 16 colours, which allow you to create a subtle or vibrant look.

Our step by step guide on...

Grouting with Starlike Grout

- Things you will need:*
- Scissors
 - Nicobond Starlike Grout
 - Nicobond Starlike Sparkle
 - Mixing Trowel
 - Green Epoxy Grout Float
 - Nicobond Emulsifying Pad (x2)
 - Bucket of Clean Tap Water
 - Nicobond Hydro Sponge (x2)
 - Nicobond Starlike Resin Cleaner
 - Gloves

Planning ahead is essential to ensure that you have all of the equipment you need to do the job.

PREPARATION

Before starting the job, make sure you have dusted and swept your surface.

*Remember to...
Wear gloves during this process.*

1. Use scissors to cut open the sachet within your tub of Nicobond Starlike Grout, squeeze out the entire content of the hardener and mix in thoroughly. When applying glitter to your grout, add 1 sachet of our Nicobond Starlike Sparkle. If you would like to create an extreme glitter effect, we recommend using 2 sachets.

2. Using the green epoxy grout float, fill the joints, making sure each joint is completely full to the tile depth. Remove any excess grout from the surface.

3. Once you've finished grouting your area, use a white Nicobond Emulsifying Pad (Nicobond Cleaning Pad) and clean tap water making small circle motions, emulsifying the grout until the surface is white and milky.

4. Use a clean Nicobond Hydro Sponge and wipe your tiles down, wiping from one side of the tiles to the other with the aim to clean off as much residue off the tiles.

5. 24 hours later, return to the tiles and apply Nicobond Starlike Resin Cleaner to the surface, spreading it around the wall/floor emulsifying the cleaner using a fresh white Nicobond emulsifying pad and allow to sit for 15 minutes.

6. Clean your tiles with tap water and a clean Nicobond Hydro Sponge. Then, finally...enjoy your new grout lines!

Your guide to measuring

1. Create a drawing of the floorplan/area in the room you are measuring. It doesn't have to be to scale, but the more accurate it is, the more useful it'll be for recording purposes.

2. Measure the length of the room or area you want to tile.

3. Measure the width of the room or area you want to tile.

4. Multiply the width by the length to get the total square footage of the area you want to tile.

What if the area to tile isn't squared?

If the area is not square, split the room into smaller areas and measure the length and width of each. Then, add the area of the smaller squares together. If there is an object in the middle of the floor, such as a bathtub or a kitchen island, measure the length and width of the area covered by the object and subtract it from the total square footage.

5. Multiply the total square footage by 10% (or .10 on a calculator) and add this to the total square footage.

Why do I need to add 10%?

We always recommend purchasing 10% more than you need to cover you for any breakages or errors in cutting your tiles. Any extras can be kept for any future tile breakages or alternatively full boxes can be returned to store for a full refund if returned within 28 days.
