

The logo for N&C, featuring the letters 'N' and 'C' in a bold, blue, sans-serif font, with an ampersand between them.A modern bathroom interior featuring a glass shower enclosure with a wall of herringbone-patterned tiles. The shower fixtures are chrome. The rest of the bathroom has large, light-colored stone tiles on the walls and a light wood-look floor. A white vessel sink is on a floating vanity with a chrome faucet. A mirror is mounted above the sink, and a shelf holds various toiletries.

Wet Room
Collection

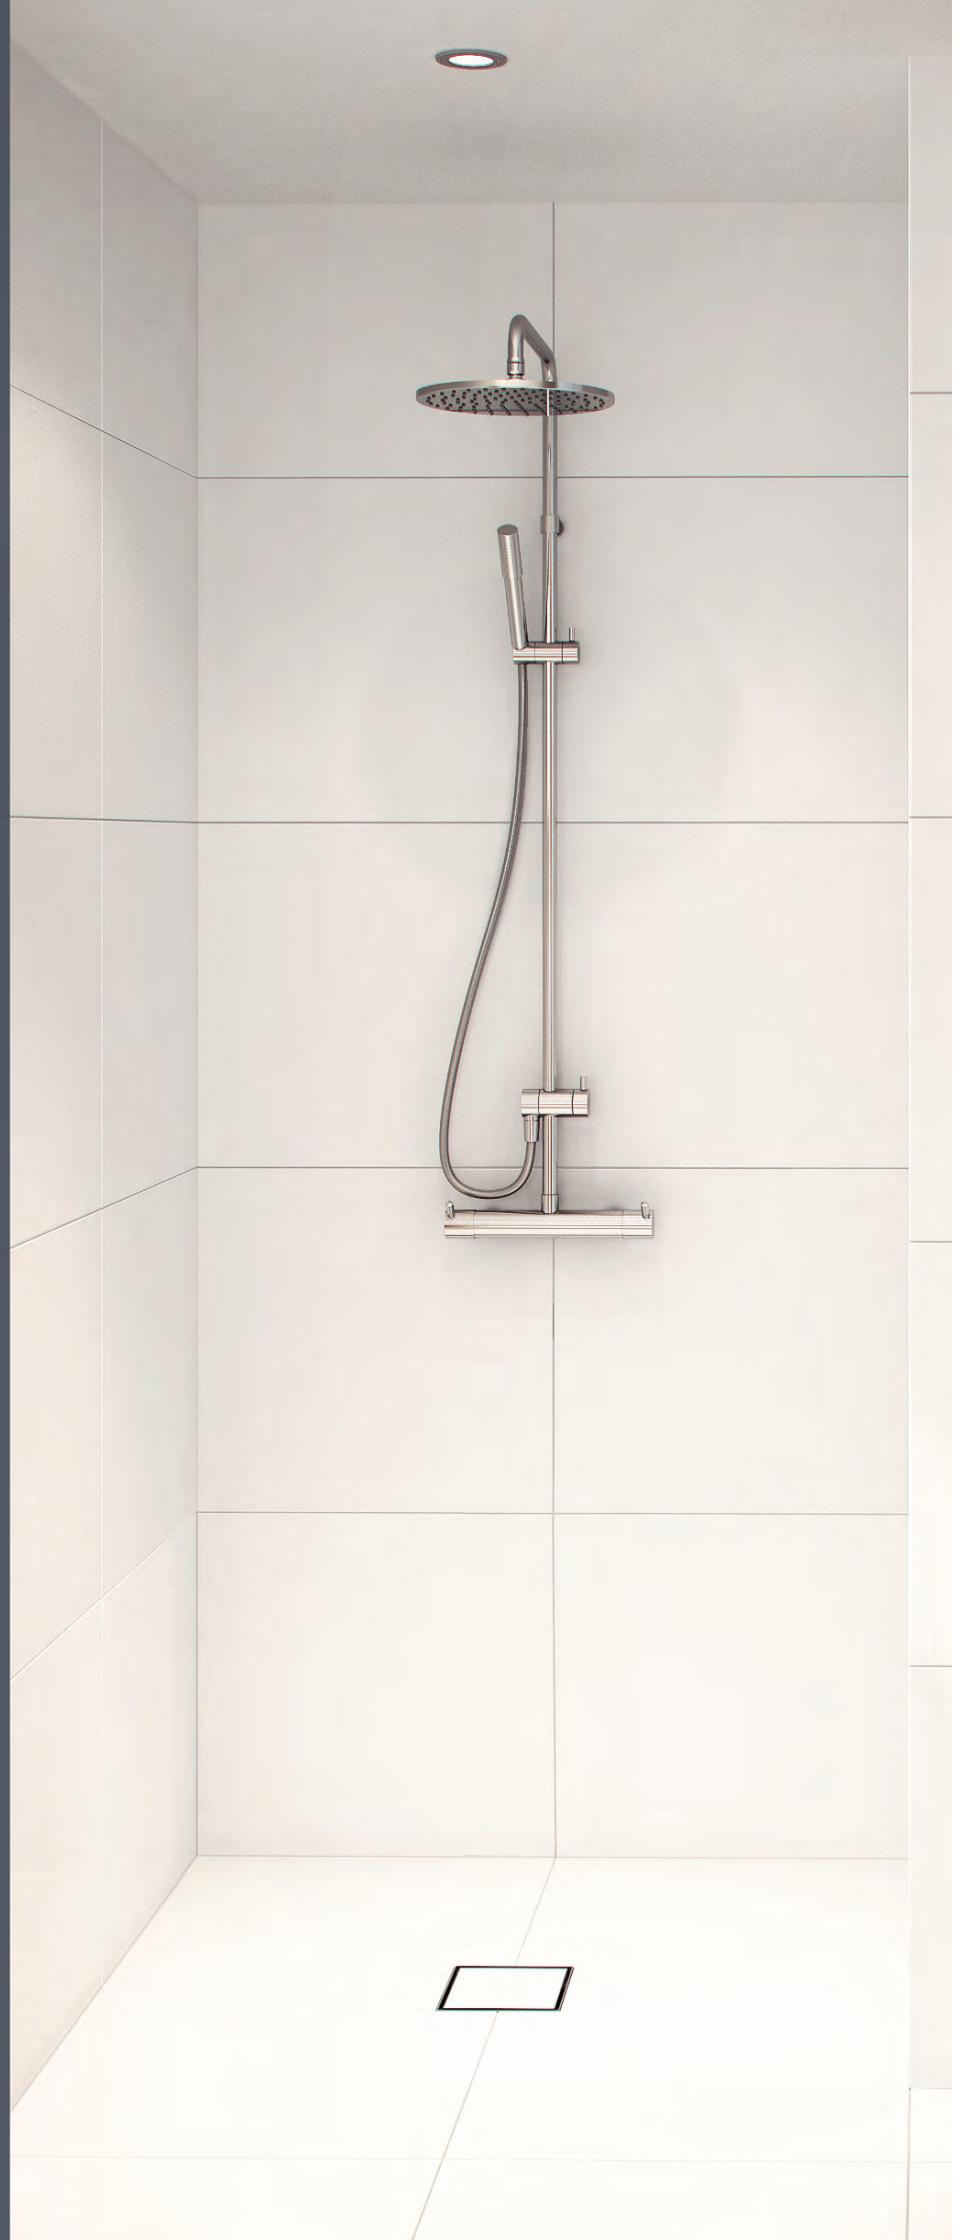

The Authority on Wet Rooms within the UK

Nicholls & Clarke are experienced, quality manufacturers of the complete wet room system. With over 30 years of experience within the wetroom market, today we offer a comprehensive collection of wet room products that have been developed with the needs of today's market in mind, designed to suit all tastes and requirements.

A luxury addition to any home, hotel or leisure space, a wet room offers attractive, level access showering with the freedom of space and movement. With the endless screen configurations to suit different spaces, opt for the complete N&C wet room system for peace of mind and flexibility in design.

Our wet room components are approved and tested to BS/EN Standards and other regulatory requirements. Furthermore, our exceptional product warranties reflect the stringent test procedures in order to pass our quality checks. We continuously deliver quality products, as standard, to all of our customers.

Specialist Manufacturers of the Wet Room System

N&C are UK manufacturers of the complete wet room system, specialising in the production of high quality, robust products that together create a watertight, proven system for domestic and commercial environments.

Using the latest manufacturing techniques, cutting edge design, the highest quality raw materials and thorough testing procedures, we are proud to have been manufacturing for decades the UK's strongest shower decks, which have achieved industry leading, independent test results.

Our wet room system has been installed in thousands of properties throughout the UK and internationally due to its robust construction, ease of installation, as well as the confidence instilled in our clients through its unfaltering reputation.

Why Choose an N&C Wet Room

A wet room is a fully tiled shower area that uses a floor former that sits flush with your sub floor, rather than a shower tray that sits on top. A wet room is an attractive bathroom option that is easy to clean, allows freedom of movement, accessibility and flexibility in design. It instantly upgrades the value of your property and is a great way to get a luxury boutique look.

At N&C, we offer a wide range of attractive wet room options which are stylish and affordable. With a broad collection of high quality, innovative wet room screens with unique functionality encompassed within each option, let N&C guide you to creating the perfect wet room.

Wet Rooms Tailored to Your Space

A wet room is ideal for many environments and spaces, whether you are looking at building a luxury ensuite, converting a small domestic cloakroom, renovating a period property bathroom or refurbishing a high usage commercial washroom.

Wet rooms by nature enable a seamless step free transition from the bathroom to the wet area so are accessible by all, making them inclusive in design. Wet rooms are the perfect option for future proofing a home to make the life and investment of a bathroom stretch further.

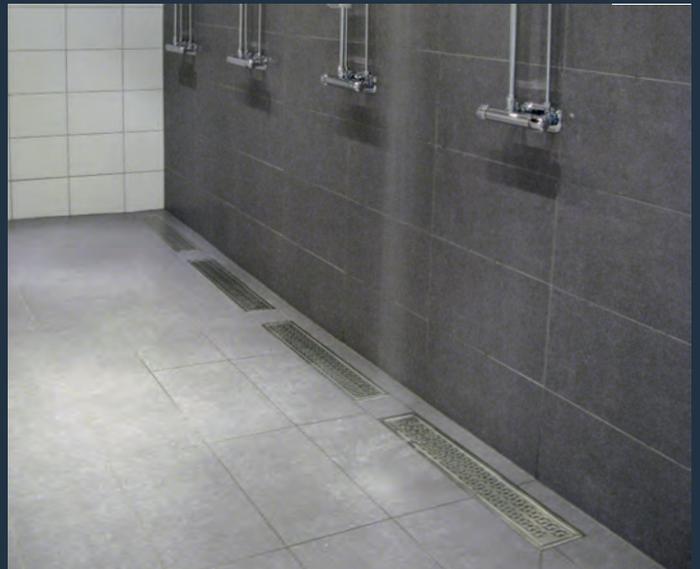

Small Spaces

Our wet rooms can fit any space, with floor formers as small as 900 x 900mm, which can be further trimmed onsite, with wet room screens to suit. Perfect for those cosy bathroom spaces.

Our wet rooms can be easily installed anywhere, from a ground floor space to a loft conversion. Designed with installation in mind, each component has been carefully manufactured to make installation easier, faster and most importantly, through its design, gives confidence to installers.

Furthermore, with our endless wet room screen ranges and configurations, our wet rooms work around your space, whether you want a wet room to fit into an alcove, a corner, or be freestanding in the centre of the room.

Commercial Spaces

Wet rooms are easy to clean spaces that reduce cleaning time. Opt for a linear drainage option for fast waste extraction.

Boutique Hotel

With N&C wet rooms, hotel owners can create the ultimate on-trend boudoir for visitors. Opt for our attractive Fluidity range of wet room screens with a unique soft close mechanism and a minimalist appearance.

Assisted Spaces

N&C are unique in offering independent living solutions where assistance is required. We offer stylish, practical wet room options for loved ones who require assistance. Perfect for care homes.

Luxury Spaces

A wet room by nature adds optimum elegance to any project. Incorporate our curved wet room screen for a unique appearance guaranteed to impress. Or, why not use one of our reflex wet room screen options that adds a luxury mirrored effect to your screen, whilst instantly increasing the perceived space of the room and offering privacy during showering.

Shower Deck

Choose a suitable shower deck based on the environment and whether the floor covering will be tiled or vinyl installation for a totally water tight solution. Suitable for both concrete and timber floor installations.

Drainage

Choose the suitable drainage system, whether standard or linear, with relevant waste system for the chosen deck.

Wet Room Tanking

Use Nicobond Wet Room Waterproofing Membrane, Tanking Sheet and other components to create a water tight wet room environment.

Nicobond Subfloor Preparation

Use high quality Nicobond manufactured products to prepare the substrate for tiling onto.

Shower Screens

Choose from a vast selection of configurations and attractive screen types suitable for your wet room space.

Tiles & Accessories

Select your preferred wall tiles, floor tiles and shower fittings.

Choose your Complete Wet Room System for Total Confidence

A wet room can be built up using 5 easy steps. Simply select the options that are suited to your wet room environment and usage.

Shower Decks

Our shower decks have been manufactured to a high quality and independently tested and have been proven to be the strongest shower decks in the UK market. Our decks help to achieve level access showering for a seamless transition into the shower area.

Premier Infinity Shower Deck

Our N&C Premier Infinity Deck is a revolutionary wet room floor former with a unique slider drain system for creating an easy to install, visually appealing level access wet floor. designed with the installer and end user in mind.

The unique, patented, factory-fitted waste outlet can be moved along by the installer to align the waste in the correct position for easy, fuss free installation. The deck also accepts up to 470kg loading and encompasses built in falls, complemented by geometric satin stainless steel edge, for the swift removal of water.

The deck features against-the-wall drainage that helps to achieve an invisible, seamless system that is discreet and attractive.

Bed into Wood

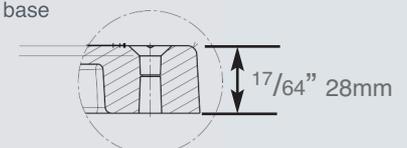

Bed into Concrete

Use with Tiles

- Factory fitted waste outlet for total confidence of a leak free connection
- Sliding action waste to avoid timber joists
- Invisible waste system that is unobtrusive
- Tile insert for discreet waste appearance
- Precision engineered single direction gradients
- Manufactured using high strength precision metal moulds
- Strong and durable base made from 50% recycled material
- Built-in 12.5mm upstand
- Can be tiled directly onto
- Built in gradients for water removal to the waste
- Pilot holes for easier installation
- Ideal for total level access
- Accepts over 470kg loading
- 28mm level access base

Premier Shower Deck

Premier Shower Deck is ideal for creating a level access wet floor area with ease. With a self supporting structure, Premier Shower Deck can be placed directly onto underfloor joists without the need for additional support. The built-in falls in the deck encourage the swift removal of waste water.

Designed with easy installation in mind, Premier Shower Decks can be installed into existing concrete or timber floors. Offset waste outlets have been designed to avoid joists (in most circumstances) for easier access to the pipework. The pre-cut outlet is suitable for use with gravity waste or pumped waste systems. Pre-cut linear drainage options are also available.

Bed in to Wood

Bed in to Concrete

Use with Tiles

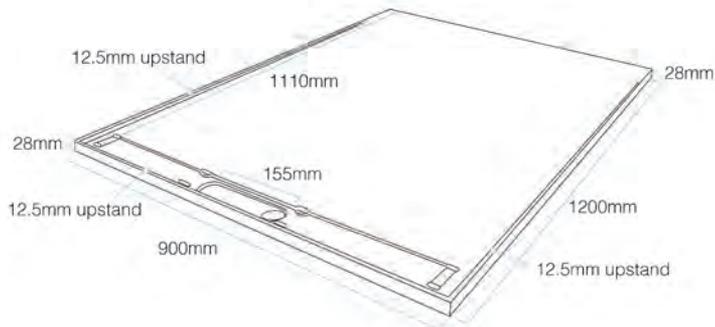

Our N&C Premier Infinity Deck is a revolutionary shower deck with a unique, factory-fitted waste outlet which can be moved along by the installer to align the waste in the correct position. The sliding action of the outlet means that the deck can be sited in a convenient position where obstacles such as a joist can be avoided.

The deck also features a unique waste removal system, which means that the finished result is an invisible, seamless and highly attractive waste system that is discreet and attractive. The precision engineered single direction gradient, complemented by the stainless steel edge allows for the high volume removal of waste water.

This is a highly innovative approach to linear decks where we offer a practical, attractive and fuss free alternative to other conventional linear drainage systems.

N&C Wet Zone

Our N&C Wet Zone is quickly and easily assembled using the N&C Premier Shower Deck mounted onto the Wet Zone Base. The principle benefit being that the components sit directly onto the floor. This offers the perfect solution where it is impossible or impractical to breach the floor. Waste pipes and connections are all built in to the base and previous connections can be utilised. A shower screen, tiles and shower valve complete the transformation.

Independent Performance Testing

An Independent expert testing authority, WMG, have completed a full programme of audited testing to evaluate the performance of the N&C Premier Shower Deck and N&C Aqua-floor Shower Deck in comparison with two competitor SMC products. The shower decks were mounted on a bespoke test rig and were subjected to point loading and distributed weight spread loading using a hydraulic cylinder or plate with a calibrated load cell.

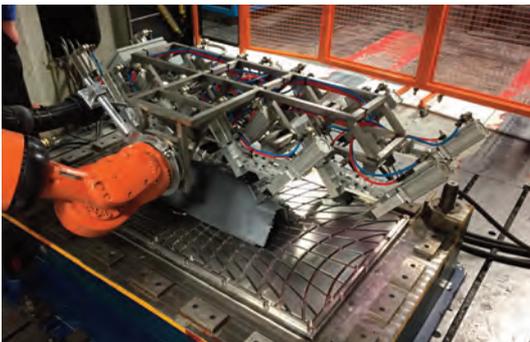

The unloaded decks were scanned for reference using an Optical Coordinate Measurement Machine and then re-scanned as increased levels of load were applied. The test report results, shown in graph form, confirms that the N&C Premier Shower Deck was found to outperform all competitor products tested against strict test criteria*.

The report also confirms that the N&C Aqua-floor SMC shower deck outperforms the competitors SMC shower decks tested; offering best in class for point loading and distributed weight spread loading.

International Manufacturing Centre

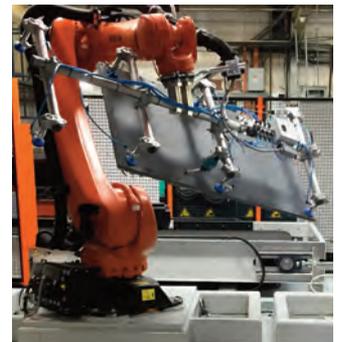

Advanced robotic SMC production line.

High grade SMC based material being placed in to an Aqua-floor shower deck mould using the UK's most technically advanced robotic SMC production line.

Aqua-floor shower deck being placed on the conveyor belt heading for our packaging line.

A freshly moulded Aqua-floor Shower Deck ready to be removed from its mould.

Deflection Under Point Loading at 250kg

The Results...

N&C Premier Shower Deck proved to be up to 30% stronger than the competitors decks tested.

N&C Aqua-Floor Shower Deck proved to be up to 20% stronger than the competitors SMC decks tested.

Deflection Under Point Loading at 350kg

The Results...

N&C Premier Shower Deck proved to be up to 30% stronger than the competitors decks tested.

N&C Aqua-Floor Shower Deck proved to be up to 25% stronger than the competitors SMC decks tested.

Deflection Under Point Loading at 250kg

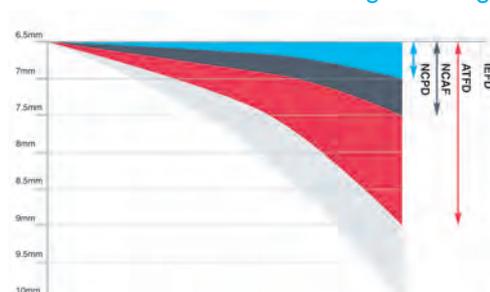

The Results...

N&C Premier Shower Deck proved to be up to 52% stronger than the competitors decks tested.

N&C Aqua-Floor Shower Deck proved to be up to 24% stronger than the competitors SMC decks tested.

Deflection Under Point Loading at 350kg

The Results...

N&C Premier Shower Deck proved to be up to 25% stronger than the competitors decks tested.

N&C Aqua-Floor Shower Deck proved to be up to 21% stronger than the competitors SMC decks tested.

Wet Room Screens/Panels

Our high quality wet room screens are made from high quality toughened glass and are available in endless sizes, configurations and panel options to suit the shape of the bathroom, helping to open up & utilise your space.

Corner Wall/End Panel

This is a popular wet room configuration used within standard sized UK bathrooms. The configuration enables the wet area to be positioned in the corner of the room between a wet room panel and wall for efficient use of space.

Free Standing

A freestanding wet room configuration allows for flexibility and a dual access wet area for the ultimate in class and a statement appearance.

Bi-Fold Shower Doors

Allows users to fold the wet room screens back to utilise the space in the bathroom. Great option for small bathrooms with little room to manoeuvre. If caring for a dependent loved one, we offer a split screen option too.

Sliding Shower Doors

Our sliding shower doors are the perfect solution for bathrooms with little space for shower doors to operate. The soft close function and smooth operation means that a sliding door adds a luxurious touch.

Deflector Panel Fixed

Our fixed deflector panel allows for the minimal appearance with added protection from water escaping from the wet area.

Deflector Panel Pivot

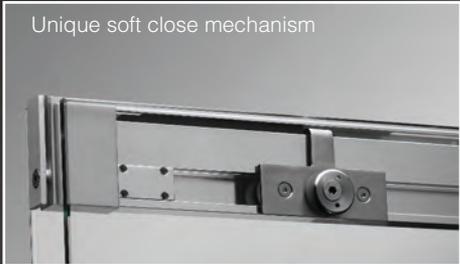

Our pivot deflector panel allows for users to easily enter and exit the shower area with ease as it acts as a partial enclosure for the wet area.

Fluidity

Fluidity is an elegant range of sliding wet room screens with a unique soft close door system. This high quality, robust system requires the gentlest of touches to operate the doors. Perfect for creating a seamless transition from bathroom or bedroom to wet area.

Fluidity Gaia has the same spec as Fluidity, without soft close doors

5 Tiles

Achieve slip resistant flooring

N&C are one of the largest UK distributors of ceramic, porcelain and natural stone wall and floor tiles in the UK. We are unique in offering a large collection of slip resistant floor tiles that meet a Pendulum Test Value of 36+ and deemed suitable for a wet floor and with bare foot slip resistance by the requirements set out by the Health & Safety Executive (HSE) for the UK market.

The tests carried out on our slip resistant tiles use a specialist rubber to simulate the slip resistance characteristics of a barefoot pedestrian, when assessing floor surfaces for use in shower areas, changing rooms and swimming pools.

It is important to consider that there are currently only two different types of rubber defined within BS 7976-1: 2002, and the UKSRG Guidelines, for use in the measurement of the floor surface slipperiness of pedestrian surfaces with the pendulum. Slider 96, also known as Four-S (Standard, Simulated Shoe Sole) rubber, is a material developed to be representative of shoe soling material of moderate slip resistance. Slider 55, also known as TRL or TRRL rubber, is a softer rubber compound used to simulate barefoot slip resistance.

All Pendulum Test Values achieved are 36+, these are therefore all classified as a 'low slip potential'.

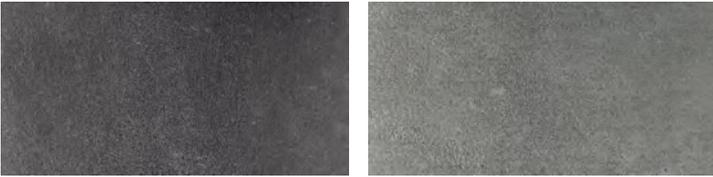

We are unique in owning the UK's first digital pendulum testing system.

All of the tiles shown are tested using Slider 55

Progress 443 x 888mm

Progress is a comprehensive porcelain range of wall and floor tiles, with complementing mosaics made up by 6 cool and warm on-trend colours. Maximise the sense of space in a wet room with this oversized porcelain tile to create visually unified and sophisticated interiors.

Wood Spirit 200 x 1140mm

Opt for Wood Spirit, a hard wearing porcelain floor tile with the beautifully diverse nature of real wood. Wood Spirit uses the latest in manufacturing technology to create the perfect replication of wood with high definition detail. The three contemporary colours blend perfectly into the series. The functional characteristics outweigh that of real wood, resulting in a wood that can be used in wet areas.

Experience

Established in 1875, Nicholls & Clarke has pedigree that has been developed over many years. Through great heritage, we have gained a depth of knowledge and invaluable experience in the manufacturing and supplying of bathroom products to the construction market. We have experience across many industries with a huge portfolio of products suited to all project environments.

Total Solution Providers

As part of the Nicholls & Clarke Group, we have the ability to offer the complete bathroom solution through a comprehensive range of quality products, so that you can benefit from dealing with one source, making it easier to co-ordinate project supplies.

Inventors & Innovators

N&C have been introducing innovative products to the bathroom industry from the early years, such as the invention of the raised height pan. We continue to be at the forefront of innovation, embracing new technology within the industry and better defining our portfolio of products that perform, but where quality and functionality are at its peak. As inventors, we continue to engage in research and development and have spent decades developing innovative bathroom products that solve the challenges faced in today's construction industry.

Warranties

N&C products are manufactured to such high and exacting standards enabling us to offer excellent warranties on all of our bathroom products. Our shower enclosures and wet room screens have up to a lifetime warranty, our shower trays and sanitaryware have up to 25 years warranty, our taps and showers have up to 12 years warranty and our baths and vanity furniture have up to 10 years.

Research & Development

Investment in the latest manufacturing equipment and testing facilities allow us to push forward with the development of new technology and raw material that will further enhance product performance and handling characteristics. Prior to going to market, we undergo rigorous testing of all our products to ensure that performance is to a high standard. All products are tested to meet the relevant standards and regulations.

Environment

As an ISO14001 company, sustainability is a core part of our company agenda. As well as various carbon offsetting programmes in place, we invest a great deal in manufacturing and developing solutions dedicated to reducing our carbon footprint, and in turn increasing our customers' green credentials.

Training

We offer practical training courses at our 120,000 square foot head office facility. Our team of experts will demonstrate and give clients and customers the opportunity to get hands on with our range of products. For further information please contact our Head Office on 020 8586 4600 or email us at info@nichollsandclarke.com

Customer Care

We aim to provide you with an outstanding level of customer service that will help to further enhance the service you offer to your clients. We monitor our performance levels and strive to achieve 100% client satisfaction. We believe that open channels of communication with our customers, coupled with their feedback are a sure way of further improving our customers buying experience.

British Manufacture

Our three state of the art U.K manufacturing facilities comply with ISO 9001 and ISO 14001, utilise the latest manufacturing technologies and apply stringent quality control checks during every part of the manufacturing process. Only the highest quality raw materials, product formulations and packaging materials are used, ensuring the finished product meets our exacting standards, far exceeding those of the latest European standards.

Trade Associations & Technical Committees

N&C have been heavily involved in the creation of British & European Standards for decades. We have chaired the TTA Wetroom Technical Committee. We continue to push for stringent policing of the industry. Our philosophy has always been to drive up quality and standards whilst remaining highly competitive.

24 Hour Nationwide Delivery

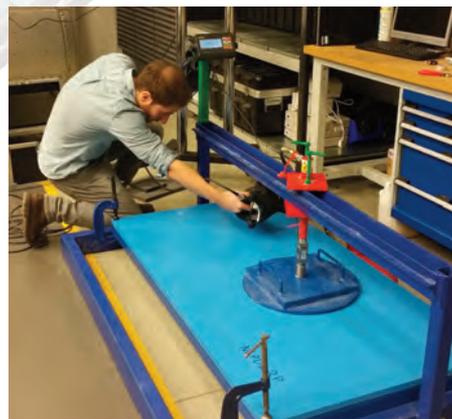

Nicholls & Clarke are unique in being able to offer nationwide, next day delivery, even when you order up to 5pm the day before' and there is no minimum order requirement. N&C operates from 18 branches nationwide offering localised delivery or, with thousands of product lines in stock, you also have the option to collect.

Technical Service

The Nicholls & Clarke technical team has extensive experience in the bathroom industry. We are able to offer a full technical specification service and are available to attend any site address throughout the U.K. A technical written specification is available on request.

Product Quality

All of our bathroom products are tried and tested to great depth prior to being introduced into the marketplace. Our wet room components have been manufactured to high quality to ensure total confidence in the market. Our Premier Shower Decks have undergone independent testing, being tested against other key manufacturers decks. The results proved that under the test parameters, Premier Shower Deck was the strongest deck when compared to the those tested.

Total Solution

provider

WETROOMS

As manufacturers of the complete system, N&C offer every component required to create a stylish, level access showering environment.

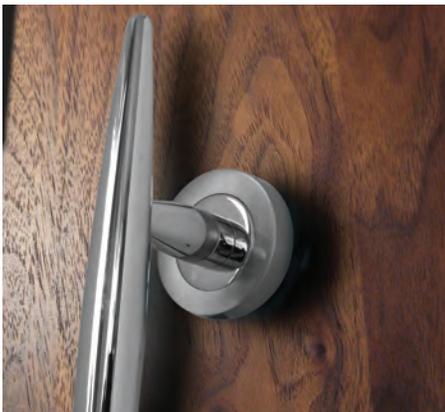

ADHESIVES

We manufacture innovative, high performance adhesives, grouts and tiling systems through our Nicobond brand, within our UK based factory.

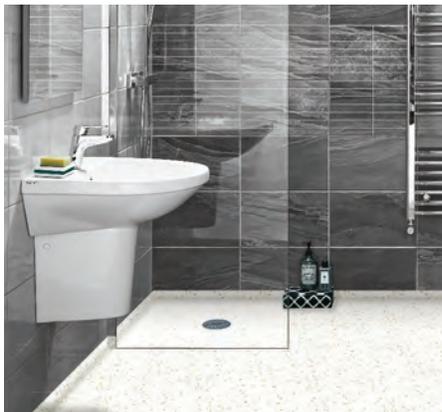

WALL & FLOOR TILES

N&C are leading suppliers of award winning ceramic, porcelain and natural stone wall and floor tiles.

IRONMONGERY

As ironmongers since 1875, and as part of the Guild of Architectural Ironmongers, we specialise in everything required in washrooms

FLOORING

As leading manufacturers, we provide quality materials for required safety flooring, such as Altro, vinyl tiles and screeds.

BATHS

From contemporary and classic, we have a broad collection of baths in a range of shapes and styles perfect for hotels.

INDEPENDENT LIVING

Through our Phlexicare brand, N&C are leading manufacturers and distributors of independent living solutions designed for people with all levels of abilities, covering accessible showering, multi user kitchens and more.

DECORATING

Our builders merchant division offers all the popular trade brands for decorators and building professionals.

GLASS & GLAZING

As the UK's leading independent supplier of commercial and domestic glass and glazing products, we can offer unrivalled solutions at competitive prices.
